

Privacy policy
Personal data act

Date	26 January 2018
Controller	International Federation of Aesthetic Group Gymnastics, IFAGG Business ID: F119289713 office@ifagg.com
Name of the register	IFAGG register
Purpose of the register	Invoicing license fees, membership fees and competition organizing fees. Informing and contacting IFAGG member federations / associations / clubs' contact persons, judges, senior gymnasts and coaches. Controlling and keeping a record on the international gymnasts, judge and coach licenses and competition records.
Data content	IFAGG register contains data of the IFAGG member federations / associations / clubs, IFAGG contact persons, gymnasts, coaches and judges. Register contains the following personal data: - personal details (first name, surname, date of birth, gender) - contact details (email address, optional street address, optional phone number) - information about country and club / team that the person represents - license information (gymnast / judge / coach). For children and junior gymnasts, only the following personal data is gathered: - first name, surname, date of birth, gender - information about country and club / team that the person represents - license information (children cat. gymnast / junior). Data cannot be submitted without the disclosure of mandatory information. The handling of the personal data, communication and the use of images, is based on consent. Person registered has at any time the right to ask what information (his/her own) is contained in the register, the right to object the processing of his/her personal data and ask that data to be removed from the register.
Source of information	All information is given by the elected contact persons of IFAGG member federations / associations / clubs.
Disclosure of information	Necessary participants' information will be provided to competition organizers. IFAGG does not pass out any information to other third parties, except for authorities when required by law or other regulations.

Principles of data protection

IFAGG monitors the data processing and the person in charge of the register controls the user IDs. The data is collected and stored in the register, which is maintained by a trusted service provider. All the printed personal information and material are duly stored in locked premises and properly disposed.
